

I am extremely upset and outraged at Sinclair Broadcasting's flouting of their commitment to serve the public interest by their partisan order to all their stations to air an anti-Kerry documentary. Were they showing both that film and either "Fahrenheit 911" or "Going Upriver", they would not be in blatant violation of their obligations incurred by being allowed use the public airwaves free of charge. What they are doing is a disservice to the public.

Surely their behavior should be censured and renewal of their license be carefully scrutinized, with the possibility of it NOT being renewed a likely consequence of their actions. It is imperative to strengthen media ownership rules. Thank you.
